

SCIENCEBASED HEALTH APPOINTS BERT M. GLASER, MD AND STEPHEN C. PFLUGFELDER, MD TO SCIENTIFIC ADVISORY BOARD

CARSON CITY, NV – May 1, 2006 – ScienceBased Health, a leading provider of premium nutraceuticals for eye health, today announced the appointment of Bert M. Glaser, MD and Stephen C. Pflugfelder, MD to its Scientific Advisory Board.

Bert M. Glaser, MD, an internationally recognized retinal surgeon who has been in practice for more than 25 years, is founder and medical director of the National Retina Institute. Dr. Glaser has developed or supported the advancement of numerous technologies including a highly successful treatment for macular holes, high-speed indocyanine green angiography for the diagnosis and treatment of age-related macular degeneration (AMD), and new treatments for diabetic retinopathy, retinal detachment, giant retinal tears, proliferative vitreoretinopathy and retinal vein occlusions. Dr. Glaser is the author of several hundred publications, including research articles, books, book chapters and abstracts. He has received awards from The Macula Society, The Retina Society, American Academy of Ophthalmology, and Association for Research in Vision and Ophthalmology. Dr. Glaser earned his medical degree from Columbia University College of Physicians and Surgeons and completed his ophthalmology residency at The Johns Hopkins School of Medicine. Until 1989, Dr. Glaser was Professor of Ophthalmology and Director of the Center for Vitreoretinal Research at The Wilmer Eye Institute at Johns Hopkins.

Stephen C. Pflugfelder, MD is a Professor of Ophthalmology at Baylor College of Medicine's Cullen Eye Institute and Director of the Ocular Surface Center. Dr. Pflugfelder has published over 140 peer-reviewed articles and over 45 book chapters and monographs, primarily in the field of cornea diseases and surgery. Dr. Pflugfelder co-edited the textbook: "Dry Eye and Ocular Surface Disorders", published in 2004 and is on the editorial boards of the journals *Cornea*, *American Journal of Ophthalmology*, *Eye & Contact Lens* and *The Ocular Surface*. Included in the last three editions of "Best Doctors in America", he received the American Academy of Ophthalmology Senior Achievement Award in 2000 and a Research to Prevent Blindness Senior Investigator Award in 2002. Dr. Pflugfelder has served as chairman of the American Academy of Ophthalmology's Lifelong Education for Ophthalmologists Committee and the Preferred Practice Pattern Committee on Corneal and Ocular Surface. A summa cum laude graduate of Colgate University and SUNY Upstate Medical University Syracuse, Dr. Pflugfelder did his ophthalmology residency at Baylor College of Medicine. He performed a Cornea fellowship at the Bascom Palmer Eye Institute of the University of Miami School of Medicine, was appointed to the faculty in 1985 and promoted to Professor in 1998.

"We are delighted to welcome Drs. Glaser and Pflugfelder to our Scientific Advisory Board," said Alain Magro, president of ScienceBased Health. "They each bring a wealth of expertise in their respective specialties. Dr. Pflugfelder is a pioneer in the field of dry eye research and we look forward to the guidance he will contribute to our clinical research endeavors. Dr. Glaser is widely recognized for his extraordinary work in developing and implementing advanced surgical and imaging technologies for AMD and other conditions and will support ScienceBased Health's continued commitment to innovation."

Drs. Glaser and Pflugfelder join ScienceBased Health's existing Scientific Advisory Board members: **Paul S. Bernstein, MD, PhD**, Associate Professor of Ophthalmology and Visual Sciences in the Retina Division at the Moran Eye Center, University of Utah School of Medicine; **Paul S. Koch, MD**, Medical Director of Koch Eye Associates and Chief Medical Editor of *Ophthalmology Management*; **Robert G. Martin, MD**, Chief of Staff, Carolina Eye Associates and Chief Medical Editor of *Ophthalmology Times, Asia*; **Stuart P. Richer, OD, PhD**, Associate Professor of Family and Preventive Medicine at Chicago Medical School and Associate Professor of Optometry at the Illinois College of Optometry; and **John D. Sheppard, MD, MMSc**, Ophthalmology Program Director at Eastern Virginia Medical School, Clinical Director of the Thomas R. Lee Center for Ocular Pharmacology and Director of Virginia Eye Consultants.

About ScienceBased Health

ScienceBased Health, a privately held company, develops and markets evidence-based nutraceuticals for eye health. The formulations, created by leading physicians, nutrition scientists and researchers, are based on the

latest scientific research and are recommended by several thousand ophthalmologists and optometrists nationwide. The Company developed **HydroEye**[®], a patented, oral formulation for dry eyes; **OcularProtect**[®], a comprehensive multinutrient for eyes and overall body health; **MacularProtect Complete**[®] and **MacularProtect Complete**[®]-S, powerful formulations, based on AREDS and other advanced research, to preserve macular and whole body health; **Optic Nerve Formula**[®], a powerful formulation to protect optic nerve health; and other high quality products for eye and body health. The products are made from premium ingredients and manufactured according to highest quality standards.
